

Energy Services

Audits, Upgrades, Certificates, **Verified Savings**

Your Energy. Engineered Smarter.

Who Are We

O'Brien Energy has engineered industrial energy solutions for over 20 years. Accredited under the Victorian Energy Upgrades program, the NSW Energy Savings Scheme and the Emissions Reduction Fund, we work with 765+ clients across Australia to reduce energy costs, unlock government incentives and build a credible path to decarbonisation.

Support

Our Services

Energy Audit

Scope 1, 2 and 3 assessments of energy use, costs and emissions across your entire facility.

Steam Trap Audit

Site identification of failed, leaking or blocked traps with energy loss calculation and rectification.

VEU Certificates

Generation of VEECs under Gas Based Deemed Activities an PBA methods across eligible upgrades.

ESC Credits

NSW Energy Savings Certificates from F10 to F15 for eligible boiler, burner and efficiency upgrades.

ACCU Creation

Australian Carbon Credit Units under the Emissions Reduction Fund via recognised M&V principles.

Decarbonisation

End to end support from baseline audit through to certificate creation, lodgement and payment.

Certificate Programs

Victorian Energy Upgrades (VEU)

Accredited under the VEU program, we identify eligible upgrades, prepare the full evidence package and submit through the VEU Portal to generate VEECs directly on your behalf.

Activity	VEECs Generated
Replace gas fired steam boiler (Act. 37)	440
Replace gas fired hot water boiler (Act. 38)	419
Gas and air control (Act. 39)	106
Combustion trim (Act. 40)	65 to 57
Replace burner (Act. 41)	174
Install economiser (Act. 42)	147 to 114

NSW Energy Savings Scheme (ESS)

Accredited under the NSW ESS, we identify eligible upgrades and manage certificate creation from end to end — reducing your project costs directly.

Activity	ESCs Generated
Install oxygen trim system (F10)	127 to 106
Replace burner (F11)	190
Install economiser (F12)	289 to 211
Install a Sensor based blowdown (F13)	24
Install a blowdown Flash steam recovery (F14)	42
Install a blowdown Heat Exchanger (F15)	26

Carbon Credits and Decarbonisation

CO₂

ACCU Creation

We support creation of Australian Carbon Credit Units under the Emissions Reduction Fund. Our team identifies eligible projects, assesses methodology applicability, establishes compliant baselines and coordinates independent audits.

O'Brien holds an ANREU account for direct registration and submission to the Clean Energy Regulator.

M&V

Measurement and Verification

We apply recognised M&V principles to quantify energy savings accurately including baseline establishment, post installation performance assessment and savings calculations for both VEU PBA methods and ESS PIA.

Full technical documentation and evidence package prepared and submitted to regulatory bodies.

Our Process

1. Site audit and opportunity identification
2. Proposal with savings and incentive modelling
3. Implementation and data collection
4. Evidence package preparation
5. Portal submission and certificate creation
6. Payment of funding to client

Why O'Brien?

- **Australia's Largest**

Leading supplier of industrial boilers across Australia

- **20+ Years Experience**

Decades of engineering expertise in steam & hot water systems

- **24/7 Support**

Around the clock support with instant phone assistance

- **Accredited Training**

RTO Code 45484,
boiler operation training nationwide

- **Tailored Solutions**

Custom engineered,
with no off the shelf compromises

- **765+ Active Clients**

Trusted across Australia and internationally
